The ENR-G program extends Elites current 2-year warranty to 3-years for any purchases made by an Educational, Non-profit, Religious or Government/Military organization. This means that Elite's professional staff and company resources are available to handle the warranty needs of these valuable channels for up to 50% longer than our regular warranty plan.

www.elitescreens.com

Elite Screens Inc. is a US based company with its world headquarters in California and satellite offices in Texas, Georgia, Maryland, Germany, Taiwan, China, Japan, India, and Australia. Elite is an ISO9001:2015 certified manufacturer that specializes in producing retail, commercial and home-theater projection screens for the specific needs of these three sales channels. As a leading American screen company, Elite delivers its promise of award winning quality through cost effective products for today's discerning video enthusiasts. We produce a variety of front, rear ALR, and acoustically transparent projection screen materials for virtually any projection environment.

New products for 2017:

- **CineTension B** has a tab-tension design ensures that its CineWhite® UHD material housed in a white aluminum housing with IR/RF control kit included.
- **Yard Master Manual** is an IP65 certified non-electric outdoor projection screen. It features a sleek enameled weather resistant aluminum casing and SRM (slow react mechanism) with its GREENGUARD® (UL2808) certified MaxWhite® projection material.
- **Yard Master Electric** is an IP33 certified electric motorized outdoor projection screen. It features a weather resistant enameled aluminum casing with its GREENGUARD® (UL2808) certified MaxWhite® projection material.
- **Aeon AcousticPro AUHD** is an acoustically transparent (AT) Ultra-Hi Def fixed frame projection screen. It features Elite's proprietary EDGE FREE® design with internal framework under wraparound material.
- **Starling Tab-Tension CineGrey 5D®** is a motorized electric 1.5 gain ambient light rejecting (ALR) screen. It features arcuate shaped aluminum housing, floating brackets, IR/RF kit and integrated key controls.

Manual B Series

Elite Screens' Manual B Series is an ultra affordable, high performance, manual pull-down projection screen for use in the home or business. Its integrated mounting solutions allow it to be installed on the wall or ceiling suspended.

Manual Series

The Elite Manual Pull-down series front projection screen is a cost effective retractable screen with a dual case design for wall or ceiling installations.

Manual SRM Series

The Manual SRM Series front projection screen has a special built-in Slow Retract Mechanism to allow a safe and quiet return to the screen's housing.

Manual SRM Pro Series

The Manual SRM Pro features a "slow retract mechanism" for hands-free retraction. Its housing comes in a pearlescent aluminum white finish designed for wall/ceiling installations. The front projection material utilized with the Manual SRM Pro, is our industry proven MaxWhite® FG.

Spectrum 2 Series

The Spectrum 2 series is a combination of a sleek design with simple functionality. It is easy to install and comes with a 3-way integrated control switch. Optional remote control kit is available.

Home2 Series

The Home2 Series is a premium grade electric/motorized front projection screen. It has an elegant enamel coating and its white aluminum housing is rust resistant.

CineTension B Series

The CineTension B is the ideal tab-tensioned projector screen for the CE Retail channel. Its tab-tension design ensures that its CineWhite® UHD material maintains the necessary flatness for its wide diffusion uniformity.

Starling 2 /

Starling Tab-Tension 2 Series

Starling 2 Series is one of our most comprehensive electric projection screen lines which is now equipped with a fast tubular motor to improve the operation speed.

VMAX 2 Series

The VMAX 2 Series is an enhanced electric motorized projector screen for commercial and home theater applications. It has a silent and power-saving synchronous motor. With standard features such as the IR & RF remotes, 12v Trigger and Electronic "Eye" Receiver.

VMAX Dual® Series

The VMAX Dual® Series is an electric projection screen with alternating 16:9/2.35:1 aspect ratio options. The product comes fully equipped with mounting brackets in addition to an RF and 12V trigger control kit.

VMAX Tab-Tension Dual Series

The VMAX Tab-Tension Dual Series has twin dual motors and screens to accommodate the 16:9 HDTV and 2.35:1 Cinemascope aspect ratios in one front projection screen.

Evanesce Series

The Evanesce is a Plenum rated In-Ceiling Front Projection Screen for non-dedicated media rooms. It uses Elite's MaxWhite® FG front projection screen material.

Evanesce Tab-Tension B Series

An elegant finished in-ceiling projection screen. It has a slim casing for easy installation from above or below a ceiling. The tab-tensioned system maintains flatness uniformity with no tab impressions.

Evanesce B Series

The Evanesce B is a versatile in-ceiling projection screen that conveniently disappears from view when not in use. It can be installed from within the above-ceiling airspace or from below thanks to its removable base panels that were originally designed for the European market.

Electric Screens - Wall/Ceiling

CineTension 2 Series

A robust and well made electric motorized projector screen. Its tab-tensioned material provides uniform flatness and has a wide viewing angle. Available in the following projection materials: 1.0 Gain CineGrey material and 1.1 Gain CineWhite® material.

Spectrum / Spectrum Tab-Tension Series

The Spectrum Series is the best option for a budget Electric/Motorized front projection screen.

Kestrel Home/ Ketrel Home 2

The Kestrel Home is a free-standing electric projection screen that demonstrates that this format can be reengineered to be an actual high-end product. It utilizes a strong tubular motor that drives its "scissor-backed" cross spring risers.

Kestrel/ Kestrel 2 Series

The Kestrel electric floor series have a stylish black piano gloss or matted finish that makes it an attractive centerpiece for home theater and high level conference rooms where wall/ceiling installations are not practical.

Kestrel Tab-Tension Series

The Kestrel Tab-Tension electric floor-rising screen is designed for environments where wall/ceiling installations are impractical. It has a stylish black finish and comes fully assembled.

Yard Master Series

Yard Master Series of outdoor projection screens is ideal for picnics, barbecues or virtually any other outdoor projector presentation imaginable. It is an affordable solution to having a professionally formatted outdoor projection screen that sets up and takes down quickly.

Yard Master Rear Series

The Yard Master Rear Series is an outdoor screen for outdoor rear projection applications.

Yard Master 2 Series

Yard Master 2 is a folding-frame outdoor projection screen. Its light-weight aluminum frame allows it to be set up in minutes. Simply, unfold the frame; attach the material and legs, then project.

Pop-Up Cinema Series

The Pop-up Cinema Series, is a portable pop-up Cinema projection screen for instant use in outdoor or indoor environments.

DIY Screen Pro Series

Designed to be lashed to its surrounding environment for a quick setup. It is a professionally engineered yet cost-effective solution that eliminates all of the visual problems encountered while trying to project on regular sheet fabrics.

DIY Wall 3 Series

A portable rollout screen for convenient Do-It-Yourself installations on walls, garage doors, patios and more.

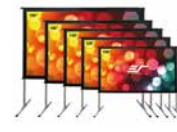

Yard Master Electric Series

The Yard Master Electric is Elite's outdoor projector screen for patios and other outdoor spaces. Watch a movie in the convenience of your own backyard, patio, pool deck, or wherever your creative innovation leads.

Yard Master Manual Series

Elite Yard Master Manual Series is a non-electric outdoor projection screen that is IP65 certified for rain/water protection. Its retractable design is ideal for wall and patio installations.

Yard Master 2 Dual Series

The Yard Master 2 Dual is a fast folding-frame outdoor or indoor projection screen. It includes a front and rear projection material in one. This eliminates the need to swap out materials and conveniently accommodates both projection set ups

Tripod Pro Series

The Tripod Pro features a new casing with the velour surfacing that adds a touch of elegance for more upscale small or large venue presentations. Its black tube casing will protect the screen material and is coated in a velveteen material that absorbs glare from projectors.

Reflexion Series

The Reflexion Series combines the ease of portability of our tripod screens with the quick set up of our ezCinema Series.

QuickStand 5-Second Series

QuickStand 5-Second Series is a large venue free-standing "pull-up" projection screen. Its portable design makes it ideal for conference rooms and large group presentations on the go.

PicoScreen™ Series

The PicoScreen™ Series is an ultra light and compact free-standing projection screen that is designed for portable tabletop presentations.

Pico Sport Series

The Pico Sport Series is a portable table top projection screen that includes both a matte white (VersaWhite) and a high gain (StarBright™ 4) surface on either side.

Designer Cut Series

Designer Cut Series is Elite's selection of pre-cut projection screen material swatches. The swatches are prepared for use in custom solutions and other improvised installations according to the integrator's needs.

Portable Screens

ezCinema Series

The ezCinema series is a Portable free-standing screen that sets up easily by using its detachable telescoping support. It is ideal for commercial and personal presentations.

ezCinema Plus Series

A deluxe version of our popular ezCinema floor pull up screen it utilizes its unique "Scissor" Cross Spring Hardware design that allows simple pull up of the screen to its desired height position.

Tripod B Series

Tripod B Series is a light-weight portable projection screen of the traditional tripod design.

Tripod Series

The Elite Tripod Series screen is ideal for indoor and outdoor presentations. This proven and reliable design combines precision with the elegance of a traditional design. Suitable for either indoor or outdoor presentations.

Aeon Series

Aeon Series is a fixed frame projection screen that uses Elite's EDGE FREE® technology. The EDGE FREE® design resembles a giant size flat panel TV display.

Aeon CLR®

The Aeon CLR® is an EDGE FREE® fixed frame screen that uses Elite's innovative StarBright CLR® (Ceiling Light Rejecting®) material. Its serriform optical surface lens microstructure negates the washout effect of ambient light especially from overhead sources.

Aeon AUHD

The Aeon AcousticPro UHD is an acoustically transparent (AT) Ultra-Hi Def fixed frame projection screen. The AcousticPro UHD material is designed to complement in-wall speakers while allowing sound to pass through the material with minimal attenuation.

SableFrame / SableFrame2 Series

The SableFrame is our fixed frame screen for today's entry level Home Cinema 1080P projectors.

ezFrame / ezFrame2 Series

The ezFrame series offers the most selection of materials including, CineWhite®, CineGrey, AcousticPro 1080P3, and WraithVeil.

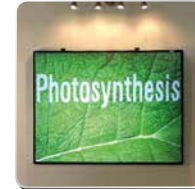

Lunette / Lunette2 Series

The Lunette Series Fixed Frame Screen has a curved frame with 3.5" black frame borders with CineWhite® or AcousticPro1080P3 material options.

WhiteBoardScreen™ Series

An ultimate presentation tool for any media room. This unique whiteboard projection screen does not glare and is ideal for short throw projectors as well as interactive projectors.

Ambient Light Rejecting WhiteBoardScreen™ Series

This whiteboard projection screen uses our StarBright™ 4 material for in-line seating. Its highly reflective projection surface enhances brightness and contrast while countering the washout effect of ambient light.

Insta-DE Series

The soft-padded dry erase whiteboard projection screen with VersaWhite 1.1 gain material is the Ideal solution for short throw projectors and educational training facilities in need of both a projection screen and a writing surface.

Insta-DEM Series

Turn any magnetic surface into a dry erase whiteboard: This magnetic whiteboard projection screen with VersaWhite 1.1 gain material is the Ideal solution for short throw projectors & educational training facilities in need of both a projection screen and a writing surface.

Insta-RP / Insta-RP 2 Series

This self-adhesive optical rear projection screen film is suitable for commercial applications such as store windows, resorts and restaurants. An ideal solution for wherever a permanent rear projection display is needed.
